Intimate Care Policy

INTIMATE CARE POLICY

Introduction

The health and safety of both staff and children is of utmost importance. While we strive to promote children's independence there may be times when help is required.

This intimate care policy has been developed to:

- Safeguard children and staff.
- Ensure children are treated with sensitivity and respect
- Provide a clear procedure for intimate care
- Inform parents in how intimate care is administered

Intimate care may be defined as any activity that is required to meet the personal needs of an individual child on a regular basis or during a one-off incident. Such activities can include:

- Supporting a pupil with dressing/undressing
- Providing comfort or support for a distressed pupil
- Cleaning a pupil who has soiled him/herself, has vomited or feels unwell

Parents have a responsibility to advise the school of any known intimate care needs relating to their child.

An Individual Intimate Care Plan will also be put in place to cater for individual needs.

Guidelines for Good Practice

- Only members of staff will carry out intimate care of a changing nature. During Covid, this will be in accordance to PHA guidelines.
- Each child will be treated respectfully and sensitively.
- Matters involving intimate care will be dealt with confidentially.
- Children will be encouraged to do as much for themselves as possible.
- Children will have privacy to change appropriate to their age and situation.
- Children will be consulted in their own intimate care and where possible be given choices in how it is carried out.
- Care will stop immediately if the child appears distressed or uncomfortable when intimate care is being carried out. Staff will try to ascertain why the child is distressed and provide reassurance. The Designated Teacher (DT), Mrs T. Toye, must be informed in this instance.
- If any concerns arise as a result of providing intimate care they must be reported immediately to the DT.

A record of intimate care will be kept in a log book. Details will include the child's name, the date and nature of care given and the signature of staff involved. Parents will be informed of the nature of intimate care verbally or via a note home (Appendix 1)

Safeguards for children

- All staff are vetted by the Education Authority or CCMS procedures, according to DENI requirements..
- Staff involved in intimate care must be familiar with this policy, the Child Protection Policy and Pastoral Care Policy.

Safeguards for staff

Staff need to be aware they are placing themselves in a vulnerable position when providing intimate care. They can take safeguarding measures including:

- Gaining a verbal agreement from another member of staff that the action being taken is necessary
- Allow the child to do as much for themselves as possible

- Allow the child a choice in the sequence of care
- Be aware of and responsive to the child's reactions
- Provide reassurance if a child is accidentally hurt during intimate care or misunderstands or misinterprets something. Record and report any incidents immediately to the DT.
- Follow PHA guidance during COVID times.

Permission

Permission to support children with intimate care will be obtained when each child commences his/her education at Edendork P.S. (Appendix 2)

Only in an emergency (and in consultation with the DT and principal) will staff undertake any aspect of intimate care that has not been agreed by parents. The child will be encouraged to do as much for themselves as possible and parents and the DT will be informed at the earliest possible time.

Where intimate care is required on a regular basis for pupils', arrangements will be agreed between the school and parents, taking the child's views into account where appropriate. In such cases, consent forms are signed and stored in the Child Protection cabinet. Such arrangements will be reviewed each term and any amendments recorded.

Hygiene

- Protective gloves will be worn
- Soiled clothing will be put in a plastic bag, unwashed, and sent home with the child
- All spills of vomit, blood or excrement will be wiped up and flushed down the toilet

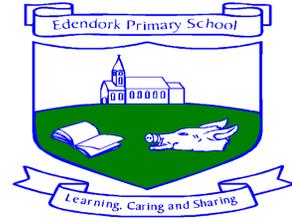

Providing comfort or support

Children may seek physical comfort from staff (particularly children Foundation Stage). If physical contact is deemed appropriate it must be suitable to the age, gender and situation of the child. Staff need to be aware that physical contact must be kept to a minimum and be child initiated.

This policy should be read alongside the Child Protection Policy and Pastoral Care Policy.

Permission Form for Intimate Care

Edendork Primary School

Permission form for the Provision of Intimate Care

Sometimes young children need help to change items of clothing if there has been an accident/incident whereby their clothing is causing discomfort. Staff can help children in a sensitive way, encouraging them to do things for themselves when possible. If you prefer, staff can contact you or your emergency contact, who will be asked to attend without delay. Edendork P.S. has an Intimate Care Policy. Copies of this policy are available in the office or from the school website www.edendorkps.com.

Please complete the form below stating your preference and return to school.

Please sign as appropriate

*I give consent for _____ (insert child's name) to be changed and cleaned with the help of staff if there has been an accident/incident where clothing is causing discomfort.

Signature of Parent/Carer _____

*I would prefer the school contact me or my emergency contact and I will organise for my child to be cleaned and changed. I understand that in the event that I (or the emergency contact) cannot be contacted the staff will act appropriately and may need to come into some level of physical contact in order to assist my child.

Signature of Parent/Carer _____
